

Amsterdam: 2x einfache Maßnahmen die Bienen zu retten +40% Bienen seit 2000

- 50% aller öffentlichen Freiflächen mit Bienen-freundlichen Pflanzen/Blumen bepflanzen
- Pestizideinsatz in der Stadt verbieten, über Alternativen informieren
- Forschung, die im vergangenen Jahr begonnen zeigt, dass es 34 Millionen Honigbienen in Amsterdam und 650 Bienenstöcke in der ganzen Stadt, Amsterdam gibt. ([Quelle](#))

Nördliches China: Hand Pollination

**Amsterdam might
have the solution to
the world's bee crisis!**

A photograph showing several bees on a dark wooden surface. In the bottom left corner, there is a logo consisting of the letters '1m' in white and a green stylized letter 'Q'.

**Bee populations in
Amsterdam were in
steep decline,**

1m♀

**so the city
made a plan
to help them thrive.**

1m♀

They planted native flowers in public green spaces

**including parks
and outside
train stations,**

**banned the
use of chemical
pesticides on
public lands,**

1mq ♀

**and installed insect
hotels across the city.**

1M♀

And it's
working!

Despite bee
populations
declining
around
the world,

1M♀

The Netherlands
is home to 300
species of
endangered
bees

whose survival
is critical to
ecosystems,

**and the country's
agriculture industry.**

**Imagine if every city
took care of the bees
like this!**
